AARHUS UNIVERSITY

Press release

Please fill in this form and return it to graduateschoolhealth@au.dk in Word format along with a portrait photo in JPEG format, if you would like it to accompany your press release, no later than three weeks prior to your defence.

Basic information

Name: Thomas Dahl Nielsen Email: thomas.dahl.nielsen@clin.au.dk Phone: 28782877

Department of: Clinical Medicine

Main supervisor: Overlæge, klinisk lektor, ph.d. Thomas Fichtner Bendtsen

Title of dissertation: Ultrasound Guided Regional Anaesthesia – Mapping the Cutaneous Innervation of the Surgical Incisions for Hip Fracture Surgery

Date for defence: 29 June at (time of day): 14.00 Place: Auditorium B, Indgang G6, Aarhus Universitetshospital, Palle Juul-Jensens Boulevard 99, 8200 Aarhus N

Press release (Danish)

Ultralydsvejledte nerveblokader til bedøvelse af det kirurgiske incisionsområde efter hoftekirurgi

Nye nerveblokadeteknikker og ny viden og om den komplekse innervation af hoften åbner mulighed for at kunne målrette og forbedre fremtidig smertebehandling efter hoftekirurgi.
Reslutaterne er skabt i et nyt ph.d. studie fra Aarhus Universitet, Health. Ph.d. studiet er gennemført af Thomas Dahl Nielsen.

Forsvaret af ph.d. projektet er offentligt og finder sted den 29/6 2018 kl. 14 i Auditorium B, Indgang G6, Aarhus Universitetshospital, Palle Juul-Jensens Boulevard 99, 8200 Aarhus N. Titlen på projektet er ”Ultrasound Guided Regional Anaesthesia – Mapping the Cutaneous Innervation of the Surgical Incisions for Hip Fracture Surgery”. Yderligere oplysninger: Ph.d. studerende Thomas Dahl Nielsen, e-mail: thomas.dahl.nielsen@clin.au.dk, tlf. 28782877.

Bedømmelsesudvalg:

Overlæge, klinisk lektor, ph.d. Thorbjørn Grøfte,
Operation og Intensiv, Regionshospitalet Randers

Professor, overlæge, ph.d. Admir Hadzic,
Anæstesi, Ziekenhuis Oost-Limburg, ZOL, Genk, Belgien

Cheflæge og ledende overlæge Alain Delbos
Paul Sabatier Universitet & Anæstesi, Médipôle Garonne Hospital, Toulouse, Frankrig

Press release (English)

Ultrasound guided nerve blocks for anaesthesia of the surgical incisions after hip surgery

New nerve block techniques and new knowledge about the complex innervertion of the hip introduce a future potential for finer targeting of pain and improving analgesia after hip surgery.
The Phd study was carried out by Thomas Dahl Nielsen.

The defence is public and takes place on 29/6 at 2 p.m. in Auditorium B, entrance G6, Aarhus Universitetshospital, Palle Juul-Jensens Boulevard 99, 8200 Aarhus N. The title of the project is "Ultrasound Guided Regional Anaesthesia – Mapping the Cutaneous Innervation of the Surgical

Incisions for Hip Fracture Surgery". For more information, please contact PhD student Thomas Dahl Nielsen, email: thomas.dahl.nielsen@clin.au.dk, Phone +45 2878 2877.

Assessment committee:

Associate prof. Thorbjørn Grøfte, MD, PhD
Consultant anaesthesiologist, Department of Anaesthesiology and Intensive Care,
Randers Regional Hospital, Randers, Denmark

Prof. Admir Hadzic, MD, PhD.
Consultant, Anesthesiology, Ziekenhuis Oost-Limburg, ZOL, Genk, Belgium

Medical director of hospital and head of department of anaesthesiology Alain Delbos
Paul Sabatier University & Department of Anesthesiology,
Médipôle Garonne Hospital, Toulouse, France

Permission

By sending in this form:

- I hereby grant permission to publish the above Danish and English press releases as well as any submitted photo.
- I confirm that I have been informed that any applicable inventions shall be treated confidentially and shall under no circumstances whatsoever be published, presented or mentioned prior to submission of a patent application, and that I have an obligation to inform my head of department and the university's Patents Committee if I believe I have made an invention in connection with my work. I also confirm that I am not aware that publication violates any other possible holders of a copyright.
