Transcultural Nursing

Åben invitation for alle interesserede

Gæsteforelæsning fredag den 4. november 2016 kl. 10-12

Jeppe Vontilius Auditorium (Søauditorierne), Bygning 1252, Bartholins Allè, 8000 Aarhus C

Marilyn A. Ray, RN, PhD, CTN-A, Professor Emerita, Florida Atlantic University, USA

Dr. Ray is well known for her theory of bureaucratic caring, which integrates knowledge of human caring within complex technological, economic, legal, and political systems in hospital organizations. Dr. Ray shows us how cultures influence one another through inter-cultural relationships, technology, globalization, and mass communication, and how these influences directly shape our cultural identities in today’s world. She integrates theory, practice, and evidence of transcultural caring to show you how to apply transcultural awareness to your clinical decision making. Go beyond common stereotypes using a framework that can positively impact the nurse-patient relationship and the decision-making process. You’ll learn how to deliver culturally competent care through the selection and application of transcultural assessment, planning and negotiation tools for interventions.
