

Danske Lægers Forsikring under Danica Pension

Research Travel Grants

Name: Danica Pension – research travel grants

Objectives: These travel grants are intended young medical doctors (preferably PhD students) planning to spend about 3 months at a foreign laboratory or in a clinical department to learn a specific research method or to perform a limited task.

The grants only cover travel and accommodation expenses.

The grants do not cover expenses relating to participation in national or international conferences and courses.

Application form: None (se specifications below)

Who can apply: Young medical doctors, preferably PhD students, and Post Docs doing research within health and medical sciences living in Denmark and enrolled in a Danish university or employed at a Danish hospital.

How to apply: Please send the application by e-mail in **one** pdf.-file to kristine.michailidis@rsyd.dk

The application must include:

1. A motivation letter of max. 3 A4 pages including:
 - Aim of the journey
 - Travel plan (incl. destination, arrival and departure date)
 - Short research project description
 - Budget and amount applied for (incl. information about other financial support)
 - PhD students are required to state the name of affiliated university and whether financial support has been granted by the faculty
2. Curriculum Vitae (incl. date of birth and e-mail)
3. Attestation from the hosting institution
4. Recommendation letter from a supervisor or the like (not required, but recommended)

Applications written in Danish or English are accepted.
