

4th Aarhus Immunotherapy Symposium (#AIS4)

Translational immunotherapy - crossing boundaries

Aarhus University, Lakeside Lecture Theatres, Thursday November 29th, 2018

13:00 - 14:00 registration & networking

Chairs: Thomas Vorup-Jensen & Georg Holländer

Bernard Malissen, CIML, Marseille, FR (Keynote)

14:00 - 14:40 *In the LEGO box of the TCR system ... from the list of parts to the assembly instructions!*

Rikard Holmdahl, Karolinska Institutet, Stockholm, SE

14:40-15:10 *How autoreactive lymphocytes learn about tissue specific antigens in cartilage*

Søren Degn, Aarhus University, Aarhus, DK

15:10 - 15:40 *Beyond antibodies – pleiotropic functions of B cells in autoimmune disease*

Birgitte Ursø, LEO Pharma, Ballerup, DK

15:40 - 16:10 *Translational drug discovery in biologics from early discovery to clinical testing*

16:10 - 16:30 Coffee

Chairs: Hans-Jürgen Hoffmann & Poul Sørensen

Georg Holländer, University of Oxford, Oxford, UK

16:30 – 17:00 *Deconstructing the thymus: Molecular insight into thymus development and function*

Eva Pålsson-McDermott, Trinity College, Dublin, IRL

17:00 - 17:30 *The role of metabolic reprogramming in macrophage effector function*

Peter S. Andersen, ALK, Hørsholm, DK

17:30-18:00 *Antibody repertoire development during sublingual allergy immunotherapy*

Mo Shamji, Imperial College, London, UK

18:00-18:30 *Peptide allergen immunotherapy: Ready for prime time*

Networking and cocktail dinatoire 18:30 – 20:00
