Press release (English)

Hysterectomy and Pelvic Organ Prolapse Surgery

Every year around 5-6,000 Danish women are hysterectomized. In this register based ph.d. study, it has been examined which factors influence the risk of subsequent pelvic floor repair among those women.

The project was carried out by Rune Lykke, who is defending his dissertation on 31/8.

The defence is public and takes place on 31/8 at 14.00 in lecture hall J116-113, Aarhus University Hospital, Palle Juul-Jensens Boulevard 99, Aarhus N. The title of the project is "Hysterectomy and Pelvic Organ Prolapse Surgery".
